PROFESSIONAL SUMMARY

Recent IT graduate with a focus on frontend development. I build practical web projects using modern web technologies, focusing on interactive features that make websites run smoothly. I enjoy solving everyday coding problems, learning new things, and creating interfaces that are clean and easy for people to use. I am ready to join a team where I can help build real projects and grow my skills as a developer.

TECHNICAL SKILLS

Skills: HTML, CSS, JavaScript, Tailwind CSS, TypeScript, React, NodeJS, MongoDB, Express, Git, Github

PROFESSIONAL EXPERIENCE

IT Helpdesk Support Intern

Black Orcas Summit Life Insurance Agency – Pru Life UK | August 2025 – November 2025

- Provided daily technical support to staff members, quickly resolving basic computer and software issues to keep the team working smoothly.
- Reorganized and digitized company files, which made it much faster and easier for the team to find the information they needed.
- Designed clean and simple social media graphics using Canva to support the agency's online presence.

PROJECTS

Expense Tracker

React, TypeScript, Supabase Link: <https://expense-tracker-eight-ruby-53.vercel.app/>

- Built a web tool that helps people manage their personal finances by tracking their income, expenses, and current balance.
- Created visual charts and added a search and filter system so users can easily see their spending habits over the month.
- Set up the app to save data directly in the browser using local storage, meaning users don't lose their information when they refresh the page.

Hierarchy

MERN, Tailwind CSS Link: <https://hirearchy-ems.vercel.app/>

- Built a full-stack employee management system with a React (Vite) frontend and an Express/MongoDB backend to handle core HR workflows.
- Implemented secure authentication and protected routes using JWT, enabling separate employee and admin dashboards.
- Developed features for attendance tracking, including check-in functionality and history logs for employees.

EDUCATION

Bachelor of Science in Information Technology

*ICCT COLLEGES
2021-2025*

CERTIFICATIONS
