PROFESSIONAL SUMMARY

Junior Frontend Developer with a B.S. in Information Technology and hands-on experience building full-stack web applications using the PERN and MERN stacks. Developed production-ready projects featuring authentication, role-based access control, REST APIs, and responsive UI with React and Tailwind CSS. Seeking a junior engineering role where I can contribute to real-world product development and continue growing as a developer.

TECHNICAL SKILLS

LANGUAGES:

JavaScript

TypeScript

FRONTEND:

HTML

CSS

Tailwind CSS

React

BACKEND:

Node.js

Express

MongoDB

PostgreSQL

TOOLS:

Git

GitHub

PROFESSIONAL EXPERIENCE

IT HELPDESK SUPPORT INTERN

August 2025 – November 2025

Black Orcas Summit Life Insurance Agency – Pru Life UK

- Provided first-line technical support to agency staff, diagnosing and resolving hardware, software, and connectivity issues to minimize downtime.
- Digitized and reorganized company file systems, improving document retrieval efficiency for the team.
- Managed the agency's social media presence by scheduling posts and creating branded graphics using Canva.

PROJECTS

Holler — Ecommerce

Live Demo: holler-uoqto.onrender.com

Source: github.com/Loopmaker/Holler

PERN · TypeScript · Tailwind CSS

- Developed a full-stack e-commerce application using PostgreSQL, Express, React, and Node.js (PERN) with TypeScript, supporting product browsing, shopping cart, and checkout flow.
- Built an admin dashboard for managing products, orders, and image uploads with cloud storage integration.
- Implemented user authentication, RESTful API endpoints, and a webhook-ready backend for payment processing.
- Enabled persistent cart state using local storage and session management.

Hierarchy — Employee Management System

Live Demo: hierarchy-ems.vercel.app

Source: github.com/Loopmaker/Hierarchy

MERN · TypeScript · Tailwind CSS

- Built a full-stack Employee Management System using the MERN stack (MongoDB, Express, React, Node.js) with TypeScript and Tailwind CSS.
- Implemented JWT-based authentication and role-based access control (RBAC) to secure separate admin and employee dashboards.
- Developed RESTful APIs with automated email notifications for leave requests and approvals.
- Designed responsive UI components in React with Tailwind CSS, integrated with backend APIs using Axios for async data handling.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2021 - 2025

ICCT Colleges

CERTIFICATION

Responsive Web Design · freeCodeCamp (2025)

JavaScript Algorithms and Data Structures · freeCodeCamp (2025)

Responsive Web Design V8 · freeCodeCamp (2026)
