PROFESSIONAL SUMMARY

Junior Web Developer with a B.S. in Information Technology and hands-on experience building web applications. I mainly work with React and TypeScript, with experience building REST APIs, authentication, role-based access, and offline-first features. Looking for a junior engineering role where I can contribute to real products and keep improving as a developer.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL
Frontend: React, Next.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express, REST APIs, JWT, Prisma
Databases: MongoDB, PostgreSQL, IndexedDB
Tools: Git, GitHub, Vercel

PROJECTS

Sari-Salo — Offline-first POS & Ordering System

Live Demo: sari-salo-pos.vercel.app Source: github.com/Loopmaker/sari-salo

Next.js · TypeScript · PostgreSQL · Prisma · Tailwind CSS

- Built an offline-capable POS and ordering system with separate cashier, storefront, and kitchen interfaces.
- Implemented local order storage and background synchronization using IndexedDB and server-side PostgreSQL.
- Added realtime order updates for the kitchen display and validation with Zod.
- Designed the system to handle temporary network loss without blocking cashier operations.

Hirearchy — Employee Management System

Live Demo: hirearchy-ems.vercel.app Source: github.com/Loopmaker/Hirearchy

MERN · JWT · Tailwind CSS

- Built a full-stack Employee Management System using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented JWT-based authentication and role-based access control (RBAC) to secure separate admin and employee dashboards.
- Developed RESTful APIs with automated email notifications for leave requests and approvals.
- Designed responsive UI components in React with Tailwind CSS, integrated with backend APIs using Axios for async data handling.

EXPERIENCE

IT HELPDESK SUPPORT INTERN

August 2025 – November 2025

Black Orcas Summit Life Insurance Agency – Pru Life UK

- Provided first-line technical support to agency staff, diagnosing and resolving hardware, software, and connectivity issues to minimize downtime.
- Digitized and reorganized company file systems, improving document retrieval efficiency for the team.
- Managed the agency's social media presence by scheduling posts and creating branded graphics using Canva.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2021 - 2025
