PROFESSIONAL SUMMARY

Recent IT graduate specializing in frontend development, building responsive web applications using React and TypeScript. Completed several personal projects featuring interactive user interfaces and API integration for dynamic user experiences. Currently expanding into full-stack development by learning Node.js. Focused on writing clean, maintainable code and eager to contribute to a collaborative development team.

TECHNICAL SKILLS

Language: JavaScript, TypeScript
Frontend: HTML, Tailwind CSS, React
Backend: NodeJS, Express
Database: PostgreSQL, MongoDB
Tools: Git, Github

PROFESSIONAL EXPERIENCE

IT Helpdesk Support Intern

Black Orcas Summit Life Insurance Agency – Pru Life UK | August 2025 – November 2025

- Provided daily technical support to staff members, quickly resolving basic computer and software issues to keep the team working smoothly.
- Reorganized and digitized company files, which made it much faster and easier for the team to find the information they needed.
- Designed clean and simple social media graphics using Canva to support the agency's online presence.

PROJECTS

Holler — Ecommerce

PERN, TypeScript, Tailwind CSS Live Demo: <https://holler-uqto.onrender.com/> Code: <https://github.com/Loopmaker/Holler>

- Built a full-stack ecommerce application with product browsing, cart functionality, and checkout flow.
- Created admin features for managing products, orders, and image uploads.
- Integrated authentication, database management, and API handling for a production-like workflow.
- Added persistent cart storage and webhook-ready backend endpoints.

Hierarchy — Employee Management System

MERN, Tailwind CSS Live Demo: <https://hirearchy-ems.vercel.app/> Code: <https://github.com/Loopmaker/Hierarchy>

- Built a full-stack Employee Management System using React, TypeScript, Node.js, Express, and MongoDB, supporting authentication, attendance tracking, leave management, and payslip generation.
- Implemented JWT-based authentication and role-based access control, and developed RESTful APIs with email notifications to enable secure, real-time interaction between admin and employee dashboards.

EDUCATION

Bachelor of Science in Information Technology

ICCT COLLEGES

2021-2025
